Goodtimes was Champion of the KWPN 60 day stallion test at his approval year, completing not just the dressage and showjumping phases, but also the cross country section.

He competed successfully himself at Prix St George level dressage and 1.30m showjumping, before concentrating on his now famous breeding career. He sires sound, correct horses with a desire to work, a strong hind leg and great athletic ability. He also passes on his wonderful temperament and intelligence.

In his immediate pedigree we find, not just the great foundation sires Nimmerdor, Caletto I, Farn and Cor De La Bryere, but also two of the greatest sport horse foundation mares- DEKA and DORETTE, as well as the

thoroughbred blood of Koridon xx, Rantzau xx and Waldenser xx.

Goodtimes is also renowned as a sire of foundation mares and his blood can be found in the dam lines of numerous approved stallions worldwide.

He is one of the few sport horse sires worldwide to consistently produce grand prix showjumpers, grand prix dressage horses and eventers. He gives good conformation and his offspring are beautiful types.
